## ProSeries Table Dining™

### The Customer Experience™

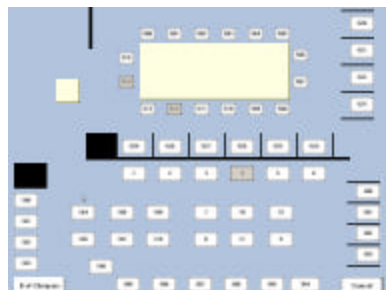

York Software is one of the North America's leading providers of complete point of sale software and hardware technology to the Restaurant, Food Service, and Hospitality industries. York Software, with its established strong alliances with industry leading technology partners such as Microsoft™, NCR™, Dell™, and Symantec™ only delivers the highest quality in point of sale technologies.

York Software **ProSeries Table Dining™** truly represents the best in full table service restaurant point of sale software. With all of the robust order and administration support of ProSeries™, ProSeries Table Dining™ adds full table and seat capabilities ensuring a flawless full-service customer dining experience.

### Protect Your Investment

The unique architecture of York Software's ProSeries Table Dining™ offers complete and fully customizable end-to-end full-service restaurant order management - ProSeries Table Dining™ provides the vital link between menu items, tables, and individual seat assignment.

York Software also provides an exemplary set of online resources for end-users, partners, and developers to get all the information they need on ProSeries™. Part of the strong ongoing success of York Software's ProSeries™ is the strong industry partnerships with leading technology firms that have developed products and provide services to the ProSeries™ community. These partners provide the stability and resources to ensure that all ProSeries™ users are the most productive, 24/7.

## ProSeries Table Dining™

York Software ProSeries Table Dining™ suite is comprised of 4 powerful components and applications:

Table Management which handles complete table and seat order assignment

Work Station which is the dynamic order touch screen interface

Management Options™ which maintains menus, user passwords, inventory

Report Center™ which is included within the ProSeries Table Dining™ suite

## Unique Architecture

The unique architecture of York Software's ProSeries Table Dining™ offers:
